

triPhaze & [sic]

winter tour 2005 - "debris" - live video - audio show.

Artist Info:

triPhaze a.k.a. Marek Brandt (Privatelektro, DE) and [sic] a.k.a. Jen Morris (Squirrelgirl, CA) are touring again in 2005. The winter tour in 2004 was so successful, they have decided to go back on the road. Both artists work with live video and audio processing.

This year the duo triPhaze and [sic] will perform 'Debris,' a piece That explores the body's transitory phase between regeneration and erosion. Our dead cells are swept, vacuumed and washed away disposing of a part of ourselves that will in turn resurface in alternate embodiment to yet again become part of ourselves. Images of hair, skin and nail loss as their communicate this mundane cycle of cell loss.

The duo investigates the concepts of degeneration and beauty by looking behind the scene with their cameras and microphones. The video would be a live mix of their individually produced films. The duo will provide a live soundtrack with the actual sounds of sweeping, shaving, and scratching.

complett live programm approx: 45 minutes..

for further information about the artists please consult their biographies ..

tech rider:

video projector
DVD player (minimum one)
table ~ 2m / 1.30 high
